GO_Biological_Process_2021
mitochondrial electron transport, NADH to ubiquinone (GO:0006120)
mitochondrial respiratory chain complex I assembly (GO:0032981)
NADH dehydrogenase complex assembly (GO:0010257)
aerobic electron transport chain (GO:0019646)
mitochondrial ATP synthesis coupled electron transport (GO:0042775)
mitochondrial respiratory chain complex assembly (GO:0033108)
protein targeting to ER (GO:0045047)
regulation of neural precursor cell proliferation (GO:2000177)
cellular protein metabolic process (GO:0044267)
neutrophil activation involved in immune response (GO:0002283)
