GO_Biological_Process_2021
high-density lipoprotein particle remodeling (GO:0034375)
triglyceride-rich lipoprotein particle remodeling (GO:0034370)
positive regulation of cholesterol esterification (GO:0010873)
acylglycerol metabolic process (GO:0006639)
regulation of cholesterol esterification (GO:0010872)
phospholipid efflux (GO:0033700)
positive regulation of steroid metabolic process (GO:0045940)
cholesterol transport (GO:0030301)
triglyceride metabolic process (GO:0006641)
reverse cholesterol transport (GO:0043691)
