GO_Biological_Process_2021
high-density lipoprotein particle remodeling (GO:0034375)
hydrogen peroxide catabolic process (GO:0042744)
regulation of cholesterol esterification (GO:0010872)
phospholipid efflux (GO:0033700)
triglyceride-rich lipoprotein particle remodeling (GO:0034370)
regulation of cholesterol transport (GO:0032374)
regulation of phagocytosis (GO:0050764)
hydrogen peroxide metabolic process (GO:0042743)
reverse cholesterol transport (GO:0043691)
negative regulation of lipid catabolic process (GO:0050995)
